Overview of oil and gas infrastructure in the Netherlands

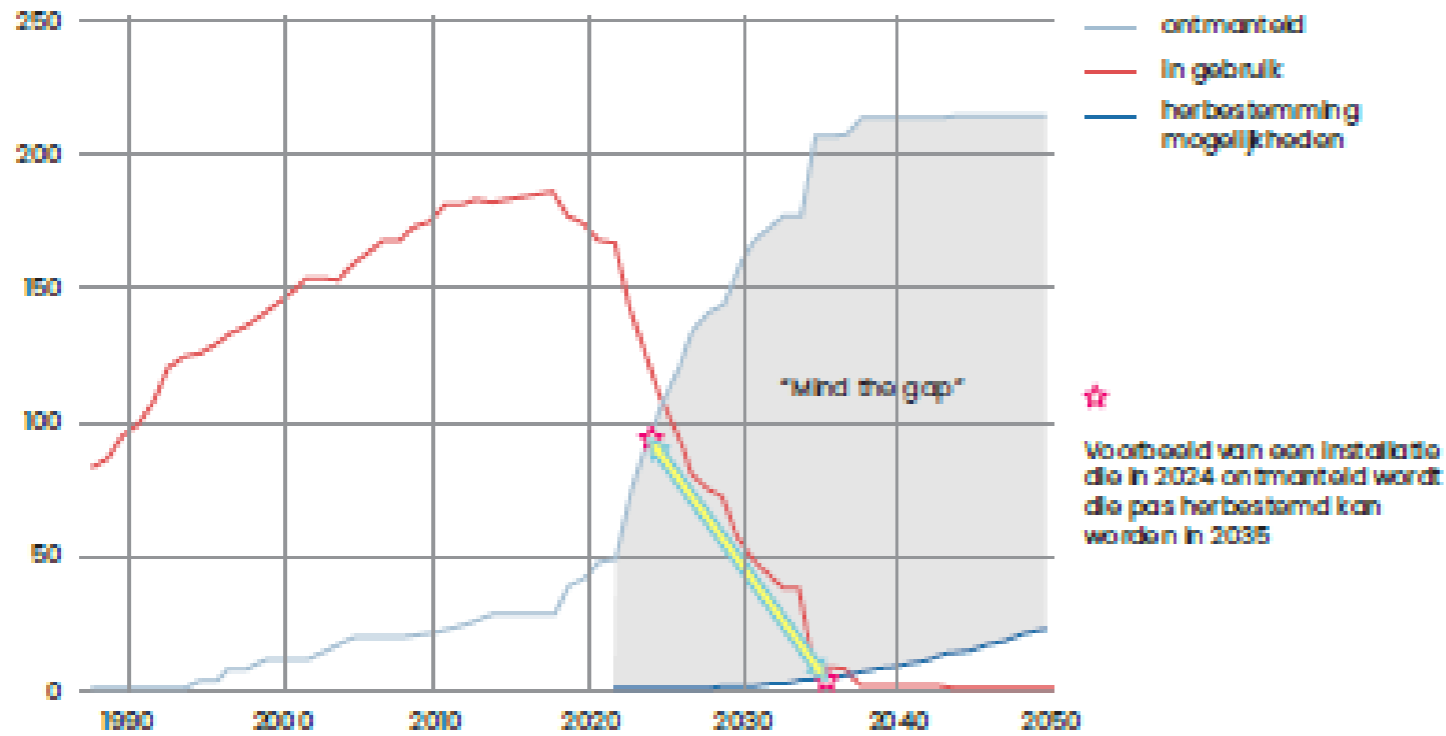

Infographic re-use

- | | |
|------------------------------------|-------------------------------|
| 1. offshore electrification | 6. relocation |
| 2. hydrogen production and storage | 7. rigs to reef |
| 3. gas to wire | 8. biomass production |
| 4. geothermal energy | 9. carbon capture and storage |
| 5. recycling | |

MIND THE GAP

Mind the gap

to Remove or not to remove, that is the question...

Remove them!
no man made
structures in
our oceans!

no!
Leave them!
We Love mms's!

What
a
Hazard!

What a bummer,
it's such a great spot
for all kinds of
species!

And it's such
a nice place
to eat!

ok, ok,
Let's dig into the
themed article set
in the ices journal
to get some answers...

PosHYdon

Power to Hydrogen Offshore Project
